CHANGES IN LOCATION OF INSTITUTES OF THE ACADEMY OF SCIENCES USSR IN MOSCOW

A number of changes in location of institutes of the Academy of Sciences USSR, which are located in Moscow, have been noted over the last 3 years. Eight institutes dealing with natural sciences, and two dealing with social sciences, have moved since April 1953. Noteworthy are the moves of the Mathematics Institute, the Institute of Metallurgy, the Institute of Organic Chemistry, the Physics Institute imeni Lebedev, and the Institute of Mining, all of which have moved to Kaluzhskoye Shosse, between its junction with the Vorob'yevskoye Shosse and the start of the Kiyevskoye Shosse.

In connection with these moves, the following announcement in the Moscow newspaper, Vechernyaya Moskva, on 10 August 1955 is of possible significance: "In connection with the reconstruction of Kaluzhskoye Shosse, the movement of all forms of transport is stopped from 10 August 1955, on the section between the All-Union Central Council of Trade Unions [Address: 66 Kaluzhskoye Shosse] and proyezd 726. Transport is to make detours by Vorob'yevskoye Shosse, proyezd 3529/726 and thence by Kiyevskoye Shosse, or from Bol'shaya Kaluzhskaya Ulitsa, Svalochnoye Shosse, to proyezd 726, thence by Kaluzhskoye Shosse and Kiyevskoye Shosse." Although the locations of the proyezds mentioned is not known, it is clear that this order closes the area containing some of the newly located institutes.

The addresses of all institutes and independent laboratories of the Academy of Sciences noted in the Moscow area, with the exception of publishing houses, are given below according to department. They are all obtained either from advertisements to fill vacancies, or from notices of dissertations to be given. All, with one exception (the address of the Administration of the Department of Geological and Geographical Sciences), were obtained from Vechernyaya Moskva, and dates refer to the particular issues of that paper. Figures in parenthesis indicate references to appended map.
